URGENT: FIELD SAFETY NOTICE – PI-21-4000

Venovo™ Venous Stent System

REFs: Refer to Appendix 1
LOTS: All unexpired product

Type of Action: Product Removal

Attention: Venous Specialists, Clinical Personnel, Risk Managers, Biomedical Personnel

This letter contains important information which requires your attention.

Dear Customer,

BD is issuing this Field Safety Notice to remove all unexpired lots of **Venovo™ Venous Stent System** (Refer to Appendix 1 for Catalogue Numbers/REF's and Lot numbers shipped by BD to the EMEA market). Our distribution records indicate that your organisation may have received impacted devices.

Description of the Problem

BD has identified through customer feedback that the **Venovo™ Venous Stent System** has the potential to exhibit deployment issues whereby the proximal end of the stent may not immediately expand upon deployment. The proximal end of the stent instead remains connected to the stent cushion on the delivery system, as illustrated in Figure 1 below. Additional investigative studies of subject test samples have observed traces of cushion material (medical grade and biocompatible silicone) firmly adhered to the surface of the stent strut only where the stent cushion comes in contact with the stent.

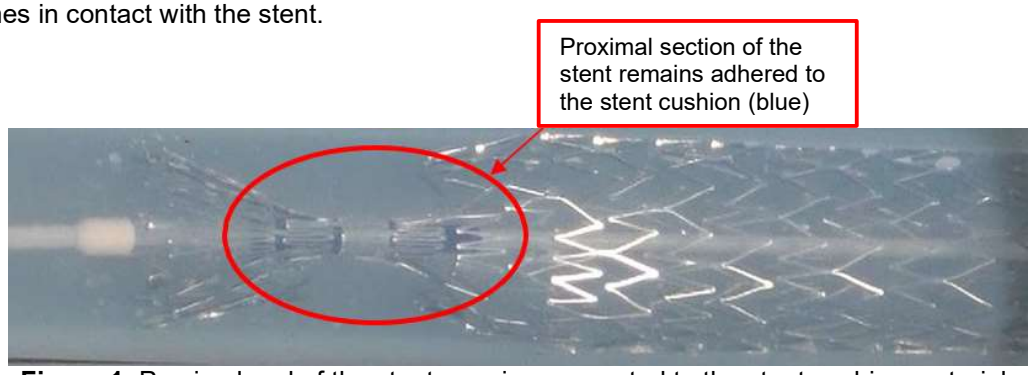

Figure 1: Proximal end of the stent remains connected to the stent cushion material.

Clinical Impact

In cases where the stent self-expands, there is no incremental risk of harm. Conversely, over-manipulation or forcing the catheter delivery system in attempts to assist the stent's expansion, could potentially have a varying degree of harm associated with it. Potential harm ranges from prolonging the procedure, damaging or deformity of the stent, potential vascular injury and / or hemodynamic disruption affecting the blood flow and / or a thrombotic event.

To date, BD has received complaints across various sizes of the product offering. The hazardous situation is that the stent, in a focal area near its proximal end, doesn't immediately expand at the time of deployment and the physician may not allow enough time for normal expansion, and tries to manipulate the stent or use other intravascular devices or techniques to help expand the stent. This may lead to misplacement or damage to the stent and vascular injury. A transfer of medical grade biocompatible silicone adhered to the inner surface of the

stent, if significant in size and detached, could lead to inflammatory responses or blockage/obstruction of the vasculature.

If the product has already been safely used, no patient follow-up activities are required. Please report any adverse health consequences experienced with the use of this product to BD if not already done so.

Corrective Actions by BD

BD has ceased manufacturing the product under scope of this Field Safety Notice and is conducting a detailed investigation into the root cause of the issue.

Advice on actions to be taken by the user

1. Please cease use of the **Venovo™ Venous Stent System.**
2. Identify, quarantine and destroy all lots of **Venovo™ Venous Stent System** (Refer to Attachment 1 for the Catalogue Numbers (REF) and Lot numbers)
    a. *All lots with an expiry date post April 2021* are in scope of this Product Removal (please refer to Appendix 2 to identify the expiry date on the product label)
3. Circulate this Field Safety Notice to all those within your organisation that may use the **Venovo™ Venous Stent System**.
4. If you have further distributed the product, please identify those users, and notify them at once of this Field Safety Notice.
5. Return the completed Customer Acknowledgment (Reply) Form on page **3** to gmb-sau-regulatory@bd.com **as soon as possible or no later than 30th June 2021**.
    a. NOTE: If you no longer use the product, it is still important that you return the Customer Response Form for our reconciliation purposes.
    b. NOTE: BD will issue credit for all customers affected by the recall following receipt of the completed Customer Response Form.

Should you have any questions or experience any issues associated with the product or issue described in this Field Safety Notice, please contact your local BD representative.

We confirm that the appropriate regulatory agencies have been informed of these actions.

BD is committed to ensuring that safe and effective product is available to customers and this Field Safety Notice is taken with due consideration of this commitment.

Thank you for your attention and cooperation.

Yours sincerely,

DocuSigned by:
